SECTION 01

Executive Summary

KeralaKart is an authentic Kerala grocery brand under the Karavan parent company, serving the GTA diaspora community across Canada. Currently operating via WhatsApp orders and Interac payments, the business is taking its first step into professional online commerce. This proposal covers the design, development, and launch of a Shopify e-commerce store — replacing the manual order process and creating a foundation for long-term digital growth.

Client	KeralaKart / Karavan
Project Type	Shopify E-Commerce Implementation
Scope	Basic e-commerce store — Phase 1
Platform	Shopify Basic
Total Investment	USD 1,700 — one-time implementation fee
Estimated Timeline	3–4 weeks from project kickoff
Prepared by	Code-Ox Technologies · www.code-ox.com

03

SECTION 03

Project Understanding

3.1 CURRENT SITUATION

KeralaKart currently receives orders via WhatsApp, collects payments via Interac e-Transfer, and handles dispatch and follow-up manually. This process has validated customer demand, but it cannot scale and creates unnecessary operational load on the team.

3.2 WHAT THIS PROJECT DELIVERS VS. WHAT'S OUT OF SCOPE

✓ Phase 1 — Included

✓

Professional online store at **keralakart.ca** — browse, cart, checkout independently

✓

Shopify Payments — Apple Pay, Google Pay, Shop Pay, credit/debit

✓

Up to 60 Karavan SKUs — organised, searchable, with full product data

✓

Automated order confirmation & shipping notifications

✓

GTA shipping zones + Ontario HST correctly configured

✓

Clean admin panel for orders, stock, and product management

✓

Admin training + fulfilment SOP document

✗ Out of Scope — Phase 1

✗

Mobile app (iOS or Android) — available in Phase 2

✗

Klaviyo advanced email/SMS automation flows

✗

WhatsApp Business API integration (WATI / Interakt)

✗

QuickBooks Online / accounting integration (Synder)

✗

Custom theme development — premium theme branded instead

✗

Ongoing maintenance retainer — available separately

FUTURE GROWTH PATH

This Phase 1 store is intentionally designed as a launchpad. When KeralaKart is ready to scale — with a mobile app, marketing automation, or a full Odoo ERP backend — Code-Ox will be ready to take the next step. **No rebuild required.**

04

SECTION 04

Scope of Work — 4.1 Store Setup & Configuration

 Shopify & Domain Setup

✓

Shopify Basic plan activation and account setup

✓

keralakart.ca domain connected to Shopify

✓

xkart.ca domain registered and protected

✓

Premium theme installed — Impulse or Dawn

 Brand Customisation

✓

KeralaKart brand palette, logo, and fonts applied

✓

Homepage layout configured

✓

Navigation menus: header, footer, mobile

✓

About, Contact, Shipping, and Refund Policy pages

4.2 PAYMENTS, TAXES & SHIPPING

Payment Methods

- ✓ Shopify Payments enabled and Stripe KYC completed
- ✓ Apple Pay, Google Pay, and Shop Pay configured
- ✓ Credit and debit card checkout enabled

Tax & Shipping

- ✓ Ontario HST with grocery-exempt product tax codes
- ✓ GTA zones: free delivery above CAD 79
- ✓ Flat rate CAD 7.99 on orders below CAD 79
- ✓ Local pickup option configured (if applicable)

4.3 PRODUCT CATALOGUE

SKU Upload — Up to 60

- ✓ English + Malayalam product title per SKU
- ✓ Description, price, weight, and product images
- ✓ Veg/Non-Veg badge, country of origin, allergen info
- ✓ 10 collection categories for diaspora shopping

Product SEO

- ✓ Page title and meta description per product
- ✓ URL handle: /products/kerala-matta-rice-5kg
- ✓ Image alt text with Kerala keyword per product

4.4 ANALYTICS INTEGRATIONS

Analytics Setup

- ✓ Google Analytics 4 — traffic, orders, conversion tracking
- ✓ Google Search Console — search visibility and indexing
- ✓ Facebook Pixel — ready for future paid social campaigns

Branded Emails

- ✓ Order confirmation email — KeralaKart branded
- ✓ Shipping notification email — branded template
- ✓ Configured via Shopify Email (native, no extra cost)

4.5 ADMIN TRAINING & HANDOVER

Full Admin Walkthrough + SOP Document

- ✓ Full Shopify admin walkthrough for the team
- ✓ How to process orders and issue refunds
- ✓ How to add/edit products and update stock
- ✓ Fulfilment SOP + 1 post-launch fix round (7 days)

05

SECTION 05
Deliverables & Project Timeline

5.1 ALL PHASE 1 DELIVERABLES

DELIVERABLE	PHASE	✓
Shopify store live on keralakart.ca	Phase 1	✓
xkart.ca domain registered and protected	Phase 1	✓
Premium Shopify theme installed and branded	Phase 1	✓
Up to 60 SKUs uploaded with full product data	Phase 1	✓
10 product collection categories configured	Phase 1	✓
Payments, Ontario HST, and GTA shipping zones configured	Phase 1	✓
GA4, Google Search Console, and Facebook Pixel	Phase 1	✓
Branded order confirmation & shipping notification emails	Phase 1	✓
Admin training and fulfilment SOP document	Phase 1	✓
Post-launch fixes — 1 round within 7 days of go-live	Phase 1	✓

5.2 PROJECT TIMELINE — 4 WEEKS

WEEK	ACTIVITIES	MILESTONE
Week 1	Shopify setup, domain connection, theme install, Shopify Payments, Ontario HST, GTA shipping zones, xkart.ca domain registration	Store skeleton live
Week 2	Brand customisation (colours, logo, fonts, homepage), 10 collection categories created, product upload begins	Brand live
Week 3	Complete 60 SKU upload with full data and SEO, GA4 + Search Console + Facebook Pixel, branded emails, end-to-end test order	Pre-launch ready
Week 4	Go-live, WhatsApp broadcast to existing customers, admin training walkthrough, fulfilment SOP handover	STORE LIVE
Week 4–5	Monitor first orders, post-launch fixes (1 round included within 7 days of go-live)	Phase 1 complete

06 SECTION 06
Investment

6.1 IMPLEMENTATION FEE

The following is a one-time project fee covering the full Phase 1 Shopify implementation as scoped above. No hourly billing. No hidden extras.

DESCRIPTION	INVESTMENT (USD)
Shopify store setup, domain configuration, theme installation	—
Brand customisation — theme, homepage, colours, logo, fonts	—
Product catalogue — up to 60 SKUs with full data entry and SEO	—
Payments, Ontario HST, and GTA shipping zone configuration	—
Analytics integrations — GA4, Google Search Console, Facebook Pixel	—
Branded email templates — order confirmation, shipping notification	—
Admin training, fulfilment SOP, and post-launch support (7 days)	—
xkart.ca domain registration and protection	—
Total One-Time Implementation Fee	USD 1,700

ONGOING COSTS — NOT INCLUDED IN THIS FEE

Shopify Basic plan — billed directly by Shopify (~CAD 79/mo). **Domain renewals** — keralakart.ca and xkart.ca billed by the domain registrar. **Shopify theme** — Dawn is free; Impulse is ~USD 380 one-time (to be confirmed before kickoff). These are third-party costs and are not part of Code-Ox's fee.

6.2 PAYMENT TERMS

MILESTONE 1 — PROJECT KICKOFF

USD 850

Due before work begins

50% of the total implementation fee. Initiates the project immediately upon receipt. Code-Ox begins setup within 24 hours of payment confirmation.

50% · KICKOFF

MILESTONE 2 — STORE LIVE

USD 850

Due on go-live

50% of the total implementation fee. Due when keralakart.ca is live and accepting real customer orders. No payment before delivery.

50% · GO-LIVE

07

SECTION 07

What Is Not Included — And What Comes Next

Phase 1 is intentionally scoped as a clean, functional launch. The following are available as Phase 2 and 3 upgrades. No rebuild required — every upgrade layers on top of Phase 1 infrastructure.

UPGRADE	WHAT IT DOES	PHASE
Mobile App (Vajro)	Branded iOS & Android app connected to the Shopify store with push notifications (5x email open rate)	Phase 2
Klaviyo Email Flows	Automated email/SMS — abandoned cart, win-back, post-delivery review request, restock alerts	Phase 2
WhatsApp Business API	Order updates and broadcast campaigns via WhatsApp through WATI or Interakt	Phase 2
QBO Integration (Synder)	Automatic sync of all Shopify orders into QuickBooks Online with correct account mapping and fee reconciliation	Phase 2
Odoo ERP Migration	Full migration to Odoo Community — inventory, accounting, CRM, and eCommerce in one unified system	Phase 3
xkart.ca Marketplace	Expand to Punjabi, Sri Lankan, Pakistani grocery categories under the xkart.ca multi-ethnic brand	Phase 3

08

SECTION 08

Next Steps

- 1

Sign the engagement agreement

Confirm the project start date and sign the engagement agreement to lock in scope and timeline.
- 2

Pay Milestone 1 — USD 850

Initiate the project. Code-Ox begins setup within 24 hours of payment confirmation.
- 3

Provide brand assets

Share logo file (PNG/SVG) and product photography — or confirm availability and timeline.
- 4

Create or share Shopify account access

Create a Shopify account at shopify.com — or share collaborator access if already created.
- 5

Share existing WhatsApp customer contact list

Provide the contact list for the go-live WhatsApp broadcast announcing keralakart.ca.
- 6

Code-Ox Week 1 kickoff — build begins

Store build begins immediately. KeralaKart's first online store will be live within 4 weeks.

Ready to launch KeralaKart.ca?

Code-Ox will handle everything from setup to handover — so the team can focus on what they do best: authentic Kerala groceries for the GTA diaspora community.
