OVERVIEW

Executive summary

Adiba's customers already reach out on WhatsApp — to ask about a piece, check a price, book a visit or follow up on a custom order. This proposal sets up an official WhatsApp Business account with a **menu-driven bot** that answers these instantly, day and night, through buttons and lists, and hands the conversation to your team whenever a person is needed.

The same account powers **WhatsApp marketing**: approved broadcast campaigns for new collections and seasonal occasions, sent to opted-in customers by segment. Every enquiry is captured as a contact, so your customer list grows with every conversation.

HOW IT WORKS

Customer writes
Messages Adiba on WhatsApp, any time.

Bot guides
Menus and buttons in Arabic or English.

Bot acts
Answers, shows pieces, books a visit.

Team closes
Takes over whenever a person is needed.

WHAT YOU GET

- **Guided Menus**
  Arabic & English menus with buttons and lists — no typing needed.
- **Collection Browsing**
  WhatsApp catalogue of your pieces, with enquiry in one tap.
- **Visit Bookings**
  Showroom appointments with confirmation and reminder.
- **Custom Design Requests**
  Guided form with reference photos, sent to your team.
- **WhatsApp Campaigns**
  Approved broadcasts to opted-in customer segments.
- **Lead Capture**
  Every enquiry saved as a contact in your Odoo.

UPGRADE PATH

The bot follows fixed menus, which keeps it simple, predictable and quick to launch. If you later want customers to type freely and get natural answers, the same WhatsApp account and content can move to our **chat-based WhatsApp agent**, without starting again.
