Outbound Marketing Module

WhatsApp campaigns that answer patients and hand them to your booking team

For both PhysioTrio branches, in Arabic and English, hosted in Saudi Arabia.
One platform, offered as a monthly plan or an annual licence.

Campaigns to the right patients
Imported lists, clean audiences, paced sending.

Replies answered 24/7
An AI assistant works from each campaign brief.

Hand-over with context
Interested patients reach coordinators with the chat.

محادثة توضيحية

Quotation	Date	Valid until	Prepared by
COX-PT-2026-004	15 October 2026	14 November 2026	Code-ox Technologies

How the module works

The PhysioTrio team runs WhatsApp campaigns to its patients across both branches. When a patient replies, an AI assistant answers in their language and passes anyone ready to book to the coordinators, with the full conversation. **The platform and features are the same on both packages.**

Import contacts
Lists cleaned and de-duplicated

Choose audience
With reasons for anyone excluded

Send campaign
Approved Arabic and English templates

AI answers replies
24/7, from the campaign brief

Coordinator books
Hand-over with the conversation

Everything included in the module

WhatsApp campaigns
Arabic and English templates, approved by WhatsApp.

AI reply assistant
Answers every reply around the clock, in the patient's language.

Coordinator hand-over
Interested patients passed on with the full chat.

Contacts and audiences
Import, cleaning, de-duplication and selection.

Reliable delivery
Paced sending, retries and failover across numbers.

Retargeting
Follow-ups based on how each patient responded.

Built-in controls
Pre-launch checks, auto-pause and opt-outs on every campaign.

Results and reports
Campaign results, cost per booking and reports.

Built for healthcare in Saudi Arabia

Patient data stays in a dedicated Saudi-region environment. Opt-outs are honoured on every campaign, and message previews never carry clinical details.

What we set up before go-live

Code-ox prepares everything the team needs, then launches the first campaign with you.

1. **Saudi-region environment**
   A dedicated environment for PhysioTrio, with monitoring and backups.
2. **WhatsApp onboarding**
   Numbers connected and Meta verification completed with PhysioTrio's documents.
3. **Dashboard and roles**
   One dashboard for both branches, with roles for marketing, coordinators and managers.
4. **First 10 templates**
   Arabic and English campaign templates written and submitted for approval.
5. **AI assistant**
   Set up with PhysioTrio's campaign briefs, services and hand-over rules.
6. **Nixpend integration**
   Patients and visits for audiences, opt-outs in step, bookings linked to campaigns.
7. **eCare integration**
   Patient details and status kept consistent with PhysioTrio's eCare system.
8. **Launch and hypercare**
   Team trained, first campaign launched together, 30 days of hypercare.

Two ways to use the module

Package A

Monthly plan

- **One-time set-up**, then one message bundle each month
- Three bundle sizes; **unused messages roll over**
- Up to **3 marketing numbers**
- Hosting and maintenance included while active
- Monthly from go-live, 30 days' notice to stop

Package B — Recommended

Annual licence

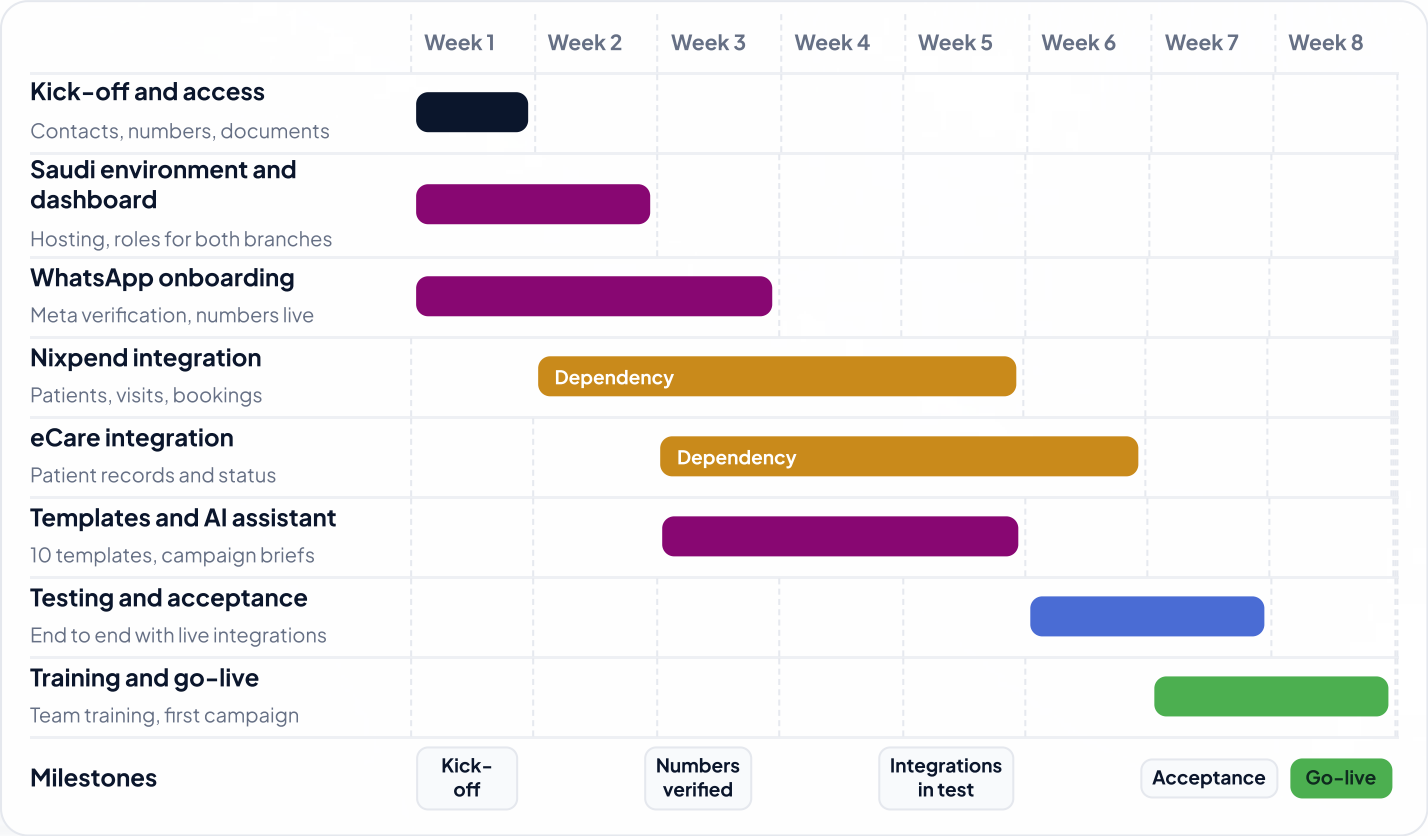

- **Set-up included**, one yearly licence
- **100,000 marketing + 50,000 service** messages a year, pooled
- Up to **5 numbers** with failover
- Hosting, maintenance and support included
- 12 months from go-live, renews yearly

Marketing and service messages

Marketing messages are the campaigns PhysioTrio sends. **Service messages** are the AI assistant's replies when a patient responds. Messages WhatsApp does not charge for are credited back.

Eight weeks to the first campaign

Set-up, the Nixpend and eCare integrations, testing and training run in parallel, so the first live campaign goes out in week 8. Hypercare continues for 30 days after go-live.

What the integrations do

Nixpend

Reads patients and visits to build audiences from real visit history, keeps opt-outs in step, and links bookings back to the campaign that brought them.

eCare

Connects PhysioTrio's eCare system so patient details and status stay consistent between eCare and the campaign platform.

Dependencies for week 8

End of week 1
Nixpend API documentation, credentials and a test environment. WhatsApp number and Meta verification documents.

End of week 2
eCare API access and test environment. First contact list and campaign briefs.

Weeks 6 and 7
Two or three PhysioTrio team members for acceptance testing, and template approvals.

If the eCare integration cannot be done as planned, go-live moves to week 9. If access to Nixpend or eCare arrives later, the plan moves by the same number of days, agreed together. Campaigns can still start from an authorised export so the team is not kept waiting.

Package A · Monthly plan

Pay a one-time set-up, then choose a message bundle each month. Move up or down a bundle for the next month as campaigns grow or slow down.

One-time set-up

﷼13,200

50% on signing (﷼6,600), 50% once live (﷼6,600)

- Dedicated Saudi-region environment
- Dashboard for both branches, team roles
- AI assistant set up with campaign briefs
- WhatsApp onboarding and Meta verification
- First 10 Arabic and English templates
- First campaign, training, 30-day hypercare

Choose one bundle each month

Starter

﷼3,190
per month

Marketing	5,000
Service	2,500

Extra: **0.34** marketing · **0.22** service
Year one with set-up: ﷼ **51,480**

Growth — Most chosen

﷼5,280
per month

Marketing	10,000
Service	5,000

Extra: **0.33** marketing · **0.21** service
Year one with set-up: ﷼**76,560**

Scale — Best rate

﷼11,000
per month

Marketing	25,000
Service	12,500

Extra: **0.32** marketing · **0.20** service
Year one with set-up: ﷼**145,200**

Every bundle price includes

- **Meta's WhatsApp fees** for every message in the bundle, at the Saudi rates in force from 1 October 2026
- **AI replies** by Anthropic's Claude through its business API, which does not train on PhysioTrio's data
- **Hosting in Saudi Arabia** on Google Cloud's Dammam region, with monitoring and daily backups
- **Maintenance, updates and support** while the plan is active
- **Up to 3 marketing numbers** with failover
- **Rollover:** unused messages carry to the next month; messages WhatsApp does not charge for are credited back

An example month on Growth

Growth bundle	﷼ 5,280
12,000 campaign messages sent 10,000 in the bundle + 2,000 extra × 0.33	﷼ 660
4,000 AI replies within the 5,000 in the bundle	Included
Invoice for the month	**﷼ 5,940**

The unused 1,000 replies roll over to the next month.

Billing
Bundles are invoiced monthly in advance; extra messages are invoiced with the next bundle.

Term
Monthly from go-live. Stop with 30 days' written notice.

Invoices
Due within 15 days. Prices exclude VAT (15%).

Package B · Annual licence

Recommended

One yearly price for both branches. Set-up, a full year of messages, hosting and maintenance are all included, so the cost is known for the whole year.

Annual licence fee

﷼57,200 per year

No set-up fee · price fixed for the licence year

100,000	50,000
marketing messages a year, about 8,300 a month	service messages a year, about 4,200 a month

Pooled across the year
Send more in Ramadan and seasonal campaigns, less in quiet months

WhatsApp numbers
Up to 5, with failover

Extra messages
0.31 marketing · 0.20 service

Term
12 months from go-live, renews yearly

Included in the licence

- **Full set-up:** Saudi-region environment, Meta verification, dashboard and roles, 10 templates, AI assistant, training, first campaign and 30-day hypercare
- **Meta's WhatsApp fees** for the full yearly allowance
- **AI replies** by Anthropic's Claude for every service message, no training on PhysioTrio's data
- **Hosting in Saudi Arabia** on Google Cloud's Dammam region, with monitoring and daily backups
- **Annual maintenance:** platform updates, bug fixes and support for the year
- **Results and reports** for both branches throughout the year

Payment

On signing 50% of the licence	**﷼28,600**
Once live 50% of the licence	**﷼28,600**
Year one	**﷼57,200**

Renewal is invoiced before each licence year at the then-current licence fee. Extra messages are invoiced monthly as used.

Year one compared, for the same 100,000 + 50,000 messages

Package A

Set-up	**﷼13,200**
Starter × 12 months	**﷼38,280**
40,000 extra marketing × 0.34	**﷼13,600**
20,000 extra service × 0.22	**﷼4,400**
Year one	**﷼69,480**

Package B

﷼57,200

Saves ﷼12,280 in year one

From year two the cost is about the same, and Package B keeps 5 numbers, a pooled allowance and a fixed price.

Terms of working together

Written to be fair to both teams: what each side provides, how pricing and billing work, and how either side can change course.

1. **Working together.** Each team names one contact person. Code-ox runs the set-up, platform and support. PhysioTrio provides the WhatsApp number, contact lists, campaign briefs and template approvals, normally within 5 working days of a request.
2. **Go-live.** The module goes live in week 8 from signing, following the timeline in this quotation, once the access listed under its dependencies is in place. If the eCare integration cannot be done as planned, go-live moves to week 9. If either team needs more time, new dates are agreed together in writing, without penalty to either side.
3. **Prices.** Prices are in Saudi Riyal and exclude VAT (15%). The annual licence fee is fixed for its licence year, and bundle prices are fixed while Meta's Saudi WhatsApp rates stay the same.
4. **If Meta changes its rates.** Code-ox gives at least 30 days' written notice of any resulting change to message or bundle prices. Before the change applies, PhysioTrio may keep its package, switch package or stop, without any charge for the decision.
5. **Invoices.** Set-up and the annual licence are paid 50% on signing and 50% once live. Bundles are invoiced monthly in advance and extra messages with the next invoice. Invoices are due within 15 days.
6. **Messages you have paid for.** On Package A, unused messages roll over to the next month. On Package B, the allowance can be used at any time in the licence year. Messages WhatsApp does not charge for are credited back. Paid messages stay available in this way rather than being refunded.
7. **Changing or ending.** On Package A, PhysioTrio can change bundle for the next month, or stop with 30 days' written notice. Package B renews yearly, and either team can choose not to renew with 30 days' notice before the renewal date.
8. **Support.** Code-ox monitors the platform, keeps it updated and supports the PhysioTrio team Sunday to Thursday, 9:00 to 18:00 Riyadh time. Anything that stops campaigns from sending is handled first.
9. **Data and privacy.** PhysioTrio owns its data, contacts and conversations. Data is hosted in Saudi Arabia and handled under the Personal Data Protection Law. If the service ends, Code-ox exports PhysioTrio's data on request and then deletes it. The platform itself remains Code-ox's intellectual property.
10. **WhatsApp policies.** Both teams follow Meta's WhatsApp Business policies. PhysioTrio messages only patients who have agreed to hear from it, and Code-ox applies pre-launch checks, auto-pause and opt-outs to protect the numbers' quality.
11. **Arranged by PhysioTrio.** WhatsApp numbers and SIMs, Meta verification documents and any paid advertising. Access to Nixpend and eCare, with their documentation and test environments.
12. **Fair limits.** Neither team is responsible for delays caused by events outside its control, such as a Meta service outage or policy change. Each team's liability is limited to the fees paid in the previous 12 months, excluding indirect losses.
13. **Confidentiality and law.** Both teams keep each other's information confidential. Any disagreement is first settled amicably between the two managements. This quotation is governed by the laws of the Kingdom of Saudi Arabia.

Getting started

1 Choose a package
Tick Package A with a bundle, or Package B, and sign below.

2 First invoice
50% of the set-up or the annual licence, due within 15 days.

3 Share the essentials
WhatsApp number, Nixpend and eCare access, contact list and briefs.

4 Go live together
In week 8 (week 9 if eCare cannot be done as planned): integrations tested, team trained, first campaign sent.

Acceptance

By signing, both teams agree to this quotation and the terms on the previous page.

☐ **Package A, monthly plan · bundle: _____** ☐ **Package B, annual licence**
