OVERVIEW

Executive Summary

Adiba's customers already reach out on WhatsApp — to ask about a piece, check a price, book a visit or follow up on a custom order. This proposal sets up an official WhatsApp Business account with a **menu-driven bot** that answers these instantly, day and night, through buttons and lists, and hands the conversation to your team whenever a person is needed.

The same account powers **WhatsApp marketing**: approved broadcast campaigns for new collections and seasonal occasions, sent to opted-in customers by segment. Every enquiry is captured as a contact, so your customer list grows with every conversation.
