01 OVERVIEW

# Executive summary

Customers don't shop by menu. They write **"a gift for my wife, rose gold, under 3,000"** or send a photo of a design they like. Our **WhatsApp agent** — a chat-based AI agent — understands these messages in Arabic and English, answers in Adiba's tone, recommends pieces from your collections, books showroom visits and gathers custom-design requests — then hands warm, qualified customers to your team.

The WhatsApp agent also runs your **WhatsApp marketing**: campaigns go to opted-in customer segments, and when customers reply, the agent picks up the conversation immediately. It covers everything a menu bot does, plus real conversation.

## HOW IT WORKS

**Customer writes**
Types freely or sends a photo, any time.

**Agent understands**
Reads the request in Arabic or English.

**Agent acts**
Recommends pieces, books visits, takes briefs.

**Team closes**
Receives a qualified lead with a summary.

## WHAT YOU GET

- **Natural Conversations**
  Understands free text in Arabic (Saudi dialect) and English.
- **Trained on Adiba**
  Your collections, policies, care and store information.
- **Personal Recommendations**
  Suggests pieces by occasion, budget, metal and style, with photos.
- **Bookings & Custom Designs**
  Books visits and gathers full custom-design briefs.
- **WhatsApp Campaigns**
  Broadcasts to segments, with the agent answering every reply.
- **Qualified Leads**
  Interest, budget and occasion captured in your Odoo.

## BRAND VOICE & GUARDRAILS

The agent speaks in Adiba's luxury tone and stays within rules you approve: it never invents prices or offers discounts outside your rules, never makes promises on custom work, and hands complaints, high-value requests and anything sensitive straight to your team with a short summary.
