

ODOO 19 CRM — SOLUTION PROPOSAL

Grow More Brands. Lose Zero Leads.

A purpose-built CRM proposal for FranchiseMe — showing how Odoo 19 transforms your consultation pipeline, team assignments, WhatsApp, and email into one system.

FranchiseMe is the only consulting firm in Saudi Arabia and the Gulf region with two **Certified Franchise Executive (CFE)** holders — the highest credential awarded by the International Franchise Association. A firm of this calibre needs a CRM that matches its professional standing. Odoo 19 delivers exactly that.

Options Presented	Option 1: Odoo Online Option 2: Odoo Custom
Document Ref	FM-CRM-2026-01 · Version 1.0

01

Your Brand Journey — as a CRM Pipeline

Every brand that requests a free consultation enters your pipeline. Odoo 19 tracks each brand from first contact to active franchise client — nothing is lost in WhatsApp chats or email inboxes.

These stages are fully customisable in Odoo — rename, add, or reorder to match your exact process.

02

Your Current Challenges — Solved by Odoo 19

WITHOUT A CRM (TODAY)	WITH ODOO 19 CRM
Free consultation requests arrive by WhatsApp, email, or website — no single place to see them all	→ All inquiries land in one CRM inbox. Odoo auto-creates a lead from each email or web form submission
Assigning leads to one of the 5 reps is done manually by WhatsApp message — easy to forget	→ Auto round-robin or manual assignment in one click. Each rep sees only their own pipeline
WhatsApp conversations with brands are on personal phones — history is lost if an employee leaves	→ Send WhatsApp directly from the CRM lead record. Full conversation history saved against the brand forever
No visibility on how many leads are stuck, how long at each stage, or which rep is overloaded	→ Live dashboard shows pipeline by stage, rep workload, conversion rate, and average deal time
Follow-up reminders are sticky notes or WhatsApp messages to yourself — things fall through	→ Schedule a call, meeting, or email follow-up on any lead. Odoo notifies the rep when it's due
When a client asks "where are we on the proposal?" — the rep has to search through chats	→ Every email, WhatsApp, note, and document is on the brand's CRM record — one click to answer

03

FranchiseMe's 4 Teams — Mapped to Odoo

Each team gets its own Odoo view with role-based access. The manager sees everything; reps see only what is relevant to them.

04

WhatsApp & Email — The Saudi Business Stack

KSA Market Context: WhatsApp is the primary B2B communication channel in Saudi Arabia. Odoo 19's native WhatsApp Business API integration means your team never leaves the CRM to message a client — and no conversation history is ever lost on a personal device.

05 Everything Included in Odoo 19 CRM

 **Lead & Pipeline Management**

- > Visual Kanban pipeline — drag brands across stages
- > Lead scoring & priority flags (hot, warm, cold)
- > Duplicate detection & smart merging
- > Expected revenue & close date per opportunity
- > Lost reason tracking for win/loss analysis

 **Activities & Follow-ups**

- > Schedule calls, emails, meetings on any lead
- > Overdue activity alerts & colour-coded deadlines
- > Calendar view synced to all activities
- > Reminder notifications in-app and by email
- > Auto-suggest next action when marking done

 **Contact & Brand Management**

- > Unified contact book shared across 5 users
- > Company + individual contact hierarchy
- > Full history per brand: calls, emails, WhatsApps
- > Custom fields & tags (industry, franchise type, etc.)
- > Attachments: proposals, contracts, reports

 **Lead Distribution — 5 Users**

- > Round-robin auto-assignment or manual assign
- > Each rep sees only their own brands by default
- > Manager sees all reps' pipelines in one view
- > Lead ownership transfer between reps
- > Sales team grouping with team lead access

 **Reporting & Analytics**

- > Pipeline analysis: won/lost by rep, stage, and source
- > Revenue forecast by month/quarter
- > Activity performance reports per rep
- > Custom dashboard tiles (drag & drop)
- > Export any report to Excel/CSV

 **Mobile App (iOS & Android)**

- > Full CRM access on any device, anywhere
- > Update lead status from client meetings
- > Log calls and add notes from the field
- > Push notifications for due activities
- > Same interface as desktop — no extra training

5 User Licences

AI-Powered Lead Scoring

06 Deployment Options

➤ RECOMMENDED FOR FRANCHISEME

Option 1 — Odoo Online

No server. No IT team. Just pay licence + implementation.

LICENCE
Per user / month

SERVER COST
None ✓

- ✓ Hosted by Odoo — no server to buy or manage
- ✓ Go live in 2–3 weeks
- ✓ Automatic security updates & daily backups
- ✓ Access from any browser or mobile device
- ✓ Add more users as your team grows
- Standard fields only (custom fields accepted ✓)
- No deep code-level customisation

IF CUSTOMISATION IS NEEDED

Option 2 — Odoo Custom

Full flexibility. Requires server + custom licence.

LICENCE
Custom Odoo

SERVER
VPS / Cloud

- ✓ Full code-level customisation freedom
- ✓ Custom modules & proprietary integrations
- ✓ Own your data and hosting environment
- Higher upfront cost (server + dev + licence)
- Longer implementation — 6–10 weeks

Choose this only if FranchiseMe requires custom business logic or integrations beyond what Odoo Online's configuration allows. Start with Option 1 first.

CodeOx Recommendation — Start with Odoo Online, Go Live in 3 Weeks

FranchiseMe's requirements — lead management, WhatsApp, email, and distribution across 5 users — are 100% covered by Odoo 19 Online. No server, no infrastructure headache. CodeOx handles setup, configuration, and training. Your team goes live and starts capturing every brand inquiry from day one.

1 **Discovery Session (1–2 hrs)** — CodeOx maps your exact workflow, pipeline stages, and team roles. No surprises at go-live.

2 **Setup & Configuration (1–2 weeks)** — CRM pipeline, WhatsApp Business API, email alias, user roles, and dashboards configured.

3 **Team Training & Go-Live (1 session)** — All 5 users trained. FranchiseMe goes live on Odoo 19 CRM with CodeOx on standby support.
