---------------------------------	-----------------------	-------------------------------	-------------------------------------

OVERVIEW

Executive Summary

Code-ox Technologies is pleased to submit this commercial quotation for a fresh Odoo ERP implementation for Laoth Advanced Trading Est., covering Accounting, Sales, Purchase, Inventory, Manufacturing, Payroll, and Expenses. This is a new Odoo instance built from the ground up — no existing installation to work around, no legacy configuration to untangle.

The result is a single connected system where a purchase order, a stock receipt, a sales invoice, a production run, and a payslip all live on the same platform — configured specifically around how Laoth Advanced Trading Est. runs, for 2 users from day one.

WHAT WE WILL DELIVER

- ✓

Accounting Module
Full AR/AP, bank reconciliation, and ZATCA e-invoicing compliance from day one.
- ✓

Sales Module
Quotation-to-invoice flow with price lists and customer-specific terms.
- ✓

Purchase Module
RFQ, vendor bills, and approval workflows tied to automatic reordering.
- ✓

Inventory Module
Multi-warehouse stock, barcode operations, and real-time valuation.
- ✓

Manufacturing Module
BOMs, work orders, and routing for assembly/kitting operations.
- ✓

Payroll Module
Payslips, WPS file export, and GOSI integration for KSA compliance.
- ✓

Expenses Module
Employee expense submission, approval routing, and direct posting to Accounting.
- ✓

Fresh Odoo Installation
New instance built and configured from scratch around Laoth Advanced Trading Est.'s workflows.
- ✓

2 User Roles & Training
Access configured per role, with hands-on training and go-live support.
- ✓

6 Months Complimentary Support — Included
Bug fixes and configuration corrections on every module, at no extra cost, for 6 months after go-live. Full scope on the Terms page.

OUR COMMITMENT

Code-ox Technologies configures Odoo around how your business actually runs — not the other way around. For Laoth Advanced Trading Est., that means Accounting, Sales, Purchase, Inventory, Manufacturing, Payroll, and Expenses set up as one connected flow from the first invoice, the first stock movement, and the first payslip.

#	MODULE / FEATURE & SCOPE DESCRIPTION
ACCOUNTING	
01	Chart of Accounts & Multi-Currency Bookkeeping General ledger and customer/vendor sub-ledgers set up around Laoth Advanced Trading Est.'s operations, with multi-currency accounts where needed.
02	Customer & Vendor Invoicing (AR/AP) Full invoice-to-payment cycle on both sales and purchase sides, synced automatically with the Sales and Purchase modules.
03	Bank Reconciliation & ZATCA E-Invoicing Bank statement import and reconciliation, plus KSA e-invoicing (ZATCA Phase 2) compliance configured in.
04	Financial Reporting & Dashboards P&L, balance sheet, cash flow, and aged receivables/payables available live — no manual exports.
SALES	
05	Quotation & Sales Order Management Quotes converted to confirmed orders with approval and pricing rules built in.
06	Price Lists & Customer-Specific Terms Different price lists, discounts, and payment terms configured per customer or customer group.
07	Sales Order → Invoice → Delivery Flow One order automatically drives invoicing and warehouse delivery — no duplicate data entry.
08	Sales Reporting & Pipeline Tracking Revenue by customer, product, and salesperson tracked in real time.
PURCHASE	
09	Purchase Requisition & RFQ Management Structured request-for-quotation process across multiple vendors before committing to a purchase order.
10	Vendor Bills & 3-Way Matching Purchase order, receipt, and vendor bill matched automatically to catch discrepancies before payment.
11	Purchase Approval Workflows Multi-level approval on purchase orders above defined value thresholds.
12	Automated Reordering Rules Minimum stock rules trigger purchase suggestions automatically, tied directly to Inventory.

WHY THIS APPROACH

Accounting, Sales, and Purchase are configured as one connected flow — a sales order drives an invoice, a purchase order drives a vendor bill, and every transaction lands in the ledger automatically. No spreadsheets bridging the gap between departments.

1

SECTION 1 — CONTINUED

Scope of Work — Inventory, Manufacturing & Payroll

#	MODULE / FEATURE & SCOPE DESCRIPTION
INVENTORY	
13	Multi-Warehouse & Multi-Location Stock Stock tracked by warehouse, zone, and bin location across all sites.
14	Real-Time Stock Valuation Live stock value and quantity on hand, synced with Accounting automatically.
15	Barcode-Based Receiving, Picking & Delivery Barcode scanning across all warehouse operations for speed and accuracy.
16	Stock Adjustments & Cycle Counts Scheduled and ad-hoc counts with a full adjustment audit trail.
MANUFACTURING	
17	Bills of Materials (BOM) BOMs configured for assembled or kitted products sold as trading items.
18	Manufacturing & Work Orders Work orders track raw material consumption against finished goods.
19	Work Center & Routing Setup Production stages and work centers configured to match the actual production flow.
20	Raw Material & Finished Goods Stock Sync Manufacturing consumption and output synced live with Inventory.
PAYROLL	
21	Employee Records & Contracts Employee master data, contracts, and salary structures centralized in Odoo.
22	Payslip Generation & Salary Rules Automated payslip runs based on configured salary structures and rules.
23	WPS File Export & GOSI Integration Wage Protection System file generation and GOSI contribution calculations for KSA compliance.
24	Leave, Attendance & Payroll Sync Leave and attendance data feeds directly into payroll calculations.

WHY THIS APPROACH

Inventory, Manufacturing, and Payroll close the loop on the other modules — stock movements post to Accounting, production consumption updates stock, and payroll runs off the same employee records used across the system. One instance, one source of truth.

1

SECTION 1 — CONTINUED

Scope of Work — Expenses

#	MODULE / FEATURE & SCOPE DESCRIPTION
EXPENSES	
25	Employee Expense Submission Employees submit expense claims with receipt attachments directly in Odoo.
26	Expense Approval Workflows Multi-level approval routing before reimbursement, matched to Laoth's sign-off structure.
27	Automatic Accounting Sync Approved expenses post directly to the ledger — no manual journal entries.
28	Expense Reporting & Reimbursement Tracking Full visibility into pending, approved, and reimbursed expenses by employee.

WHY THIS APPROACH

Every approved expense claim lands directly in the ledger, closing the loop with Accounting — no manual journal entries, no reconciling spreadsheets at month end.

WHO SEES WHAT

Admin / Owner Full visibility across Accounting, Sales, Purchase, Inventory, Manufacturing, Payroll, and Expenses. Approves purchase orders and expense claims above threshold, runs payroll, and views all financial reports.	Operations User Enters sales and purchase orders, manages stock receipts/deliveries and production work orders, submits expense claims, and logs day-to-day transactions across the system.

Project Total		6,900

* Each milestone is SAR 3,000 excl. VAT plus 15% VAT (SAR 450), invoiced as SAR 3,450 per milestone — SAR 6,900 total incl. VAT.

COSTS NOT INCLUDED IN THIS QUOTATION

Odoo user licence/subscription fees for the 2 users are billed directly by Odoo to Laoth Advanced Trading Est. and paid directly by Laoth Advanced Trading Est. — not invoiced by Code-ox. The subscription also covers Odoo's own hosting for the instance. Any third-party GOSI/WPS government portal fees, if applicable, are Laoth Advanced Trading Est.'s responsibility.

TERMS & CONDITIONS

General Terms

- **Scope of Work:** This proposal covers fresh installation and configuration of Accounting, Sales, Purchase, Inventory, Manufacturing, Payroll, and Expenses as described. Any features outside this scope will require a separate written agreement and may incur additional charges.
- **Client Responsibilities:** Laoth Advanced Trading Est. agrees to provide master data (chart of accounts, customers, vendors, products, employees, opening balances) and timely feedback within agreed deadlines. Delays caused by the client may impact the project timeline.
- **Odoo Licence Costs:** Odoo user licence/subscription fees for the 2 users are billed directly by Odoo to Laoth Advanced Trading Est. and are not included in this quotation.
- **Data Migration:** This quotation covers a fresh install with master data setup. Migration of historical transactional data from any prior system is not included and can be scoped separately if required.
- **Revisions:** Configuration includes up to two (2) rounds of adjustment post-training. Additional rounds will be charged separately at an agreed rate.
- **Warranty:** Code-ox Technologies provides **6 months of complimentary support** post go-live, covering all configured modules — see scope and terms below. Extended support retainer packages are available upon request after this period.
- **Confidentiality:** Both parties agree to keep the contents of this proposal confidential and not disclose them to any third party without prior written consent.
- **Governing Law:** This agreement shall be governed by the laws of the Kingdom of Saudi Arabia.

HIGHLIGHT — 6 MONTHS COMPLIMENTARY SUPPORT

Covered for 6 months from go-live, at no extra cost: bug fixes and configuration corrections on the Accounting, Sales, Purchase, Inventory, Manufacturing, Payroll, and Expenses modules as built, plus minor adjustments to fields, roles, and templates — target response **2 business days**. **Not covered:** new features, changes from Odoo platform updates, or issues from Laoth Advanced Trading Est.'s own post-launch configuration changes — these are scoped separately, keeping the period fair to both sides. An optional retainer covers support after 6 months.

A ASSUMPTIONS & EXCLUSIONS
Key Project Assumptions

- ☐ Laoth Advanced Trading Est. will provide master data — chart of accounts, product list, BOMs, customers, vendors, and employees — within **5 business days** of kickoff.
- ☐ Odoo licence/subscription (2 users) is purchased and paid for directly by Laoth Advanced Trading Est. with Odoo before implementation begins.
- ☐ GOSI and WPS portal access/credentials are **client-provided** for payroll compliance configuration; any government portal fees are Laoth Advanced Trading Est.'s responsibility.
- ☐ ZATCA e-invoicing configuration assumes Laoth Advanced Trading Est.'s existing ZATCA registration and compliance status is in order; ZATCA registration itself is not part of this scope.
- ☐ Since this is a fresh install, no legacy Odoo data or configuration exists to migrate or clean up.
- ☐ This quotation is valid for **30 days** from the date of issuance.

AUTHORIZATION

Acceptance & Authorization

By signing below, both parties confirm acceptance of this commercial quotation and authorize the commencement of the project under the terms, scope, and payment schedule set out above.
