

ODOO 19 CRM — SOLUTION PROPOSAL

Grow More Brands. Lose Zero Leads.

A purpose-built CRM proposal for FranchiseMe — showing how Odoo 19 turns your consultation pipeline, team assignments, WhatsApp, and email into one system.

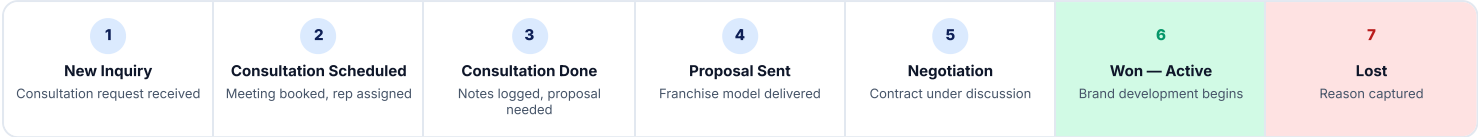

FranchiseMe is the only consulting firm in Saudi Arabia and the Gulf region with two **Certified Franchise Executive (CFE)** holders — the highest credential from the International Franchise Association. A firm at this level needs a CRM that matches its professional standing. **Odoo 19 delivers exactly that.**

Client	FranchiseMe — Franchise Consulting & Brand Development, KSA
Prepared by	Raghib Ali Rafeeq · CodeOx · +966 561 765 707
Platform	Odoo 19 CRM (Latest Release)
Team Size	6 Users — 5 Sales Representatives + 1 Administrator
Core Modules	CRM · WhatsApp (Discuss) · Email Marketing · Contacts
Options Presented	Option 1: Odoo Online Option 2: Odoo Custom
Document Ref	FM-CRM-2026-01 · Version 1.0

01

Your Brand Journey — as a CRM Pipeline

Every free consultation request enters your pipeline. Odoo 19 tracks each brand from first contact to active franchise client — nothing is lost in WhatsApp chats or email inboxes.

Stages are fully customisable — rename, reorder, or add new ones to match your exact process.

02

Your Current Challenges — Solved by Odoo 19

WITHOUT A CRM (TODAY)	WITH ODOO 19 CRM
Consultation requests arrive by WhatsApp, email, website — no single place to see them all	→ All inquiries land in one CRM inbox. Odoo auto-creates a lead from each email or web form submission
Assigning leads to one of the 5 reps is done manually by WhatsApp — easy to forget or drop	→ Auto round-robin or one-click manual assignment. Each rep sees only their own pipeline
WhatsApp conversations are on personal phones — history is lost if an employee leaves	→ Send WhatsApp from the CRM lead record. Full conversation saved against the brand forever
No visibility on stuck leads, rep workload, or how long a brand has been waiting	→ Live dashboard: pipeline by stage, rep workload, conversion rate, average deal time
Follow-up reminders are sticky notes or WhatsApp messages to yourself — things fall through	→ Schedule calls, meetings, and emails on any lead. Odoo notifies the rep when it's due

03

Administrator — Full Control Over the Sales Team

The Administrator sees everything the 5 reps cannot — and acts on it in real time.

- See every rep's live pipeline on one screen — who is overloaded, who needs more leads

➤ Track each rep's performance: calls made, proposals sent, leads won and lost

➤ Generate weekly or monthly performance reports per rep — no manual data collection
- Spot leads going cold before they are lost — intervene at exactly the right moment

➤ Reassign any lead in one click if a rep is unavailable or leaves the team

➤ Full audit trail of every action on every lead — complete team accountability

04 Everything Included — At a Glance

Visual Sales Pipeline

Drag and drop brands across custom stages. See your entire pipeline in one Kanban view — no spreadsheets needed.

Smart Lead Distribution

Auto round-robin assignment across 5 reps. The Administrator controls who gets what — reps only see their own leads.

WhatsApp Business

Message brands directly from the CRM. Full conversation history logged automatically — nothing on personal phones.

Email Integration

Connect your company email. Every email to/from a brand is auto-linked to their record. Incoming emails create leads automatically.

Activities & Follow-ups

Schedule calls, meetings, and tasks on any lead. Odoo sends reminders before they're due — no follow-up ever falls through.

Live Dashboards

Real-time pipeline analytics: won/lost by rep, conversion rates, revenue forecast, and activity reports. Export to Excel anytime.

Brand Contact Hub

One record per brand — every call, email, WhatsApp, note, proposal, and contract, all in one place. Find anything in seconds.

Mobile App

Full CRM on iOS & Android. Update leads, log calls, and receive activity reminders from any location — same UI as desktop.

AI Lead Scoring

Odoo 19's built-in AI automatically scores leads by likelihood to convert — so reps focus their time on the hottest opportunities first.

05 WhatsApp & Email — The Saudi Business Stack

WhatsApp Business Integration

- > Message brands directly from their CRM lead record
- > Full WhatsApp thread saved on the record permanently
- > Pre-approved templates for consultation confirmations
- > Incoming replies notify the assigned rep inside Odoo
- > One shared Business number — no personal phones needed

Email Integration

- > Connect Gmail, Outlook, or any custom email (SMTP)
- > Set up **info@franchiseme.net** to auto-create leads
- > Every email to/from a brand is logged on their record
- > Send branded proposals using email templates from CRM
- > Mass email campaigns to nurture past & future leads

KSA Market Context: WhatsApp is the primary B2B communication channel in Saudi Arabia. Odoo 19's native WhatsApp Business API integration means your team never leaves the CRM to message a client — and no conversation is ever lost on a personal device.

06 Choose Your Deployment

+

RECOMMENDED FOR FRANCHISEME

Option 1 — Odoo Online

No server. No IT team. Licence + implementation only.

LICENCE
Per user / month

SERVER COST
None ✓

✓ Hosted by Odoo — no server to buy or manage

✓ Go live in 2–3 weeks

✓ Automatic security updates & daily backups

✓ Access from any browser or mobile device

✓ Add users anytime as the team grows

○ Standard fields only (custom fields accepted ✓)

○ No deep code-level customisation

WHAT FRANCHISEME PAYS

Odoo Licence (monthly per user) + CodeOx Implementation Fee (one-time)

IF CUSTOMISATION IS REQUIRED

Option 2 — Odoo Custom

Full flexibility. Requires server + custom licence.

LICENCE
Custom Odoo

SERVER
VPS / Cloud

✓ Full code-level customisation freedom

✓ Custom modules & proprietary integrations

✓ Own your data and hosting environment

○ Higher upfront cost — server + dev + licence

○ Longer implementation: 6–10 weeks

Choose this only if FranchiseMe requires custom business logic or integrations beyond what Odoo Online's configuration allows. We recommend starting with Option 1.

07 Quick Comparison

Feature	Odoo Online (Option 1)	Odoo Custom (Option 2)
CRM Pipeline & Lead Management	✓ Included	✓ Included + customisable
WhatsApp Business	✓ Included	✓ Included
Email Integration	✓ Included	✓ Included
Mobile App (iOS & Android)	✓ Included	✓ Included
Administrator Dashboard	✓ Included	✓ Included
Server Required	✗ Not needed	⚠ Yes — VPS/Cloud
Deep Code Customisation	✗ Not available	✓ Full freedom

CodeOx Recommendation — Start with Odoo Online, Go Live in 3 Weeks

FranchiseMe's stated requirements — lead management, WhatsApp, email, and distribution across 5 reps managed by 1 administrator — are 100% covered by Odoo 19 Online. No server, no infrastructure cost. CodeOx handles the full setup. Your team goes live capturing every brand inquiry from day one.

1

Discovery Session (1–2 hrs) — CodeOx maps your exact workflow, pipeline stages, and team roles.

2

Setup & Configuration (1–2 weeks) — CRM pipeline, WhatsApp API, email alias, 6 user roles, and dashboards configured.

3

Training & Go-Live — Administrator + 5 sales reps trained. FranchiseMe goes live with CodeOx on standby support.
