PREPARED BY

Code-ox Technologies

PREPARED FOR Adiba Maison Jewellery · Kingdom of Saudi Arabia. This quotation covers CRM, Inventory, and WhatsApp Marketing implementation on Adiba's existing Odoo instance (currently running POS) and is valid for 30 days from the date of issuance.

OVERVIEW

Executive Summary

Code-ox Technologies is pleased to submit this commercial quotation for extending Adiba Maison Jewellery's existing Odoo installation with CRM, Inventory, and WhatsApp Marketing modules. Adiba currently runs Odoo POS at the counter on a single user licence — this proposal covers the natural next step, switching on the rest of the platform Adiba already owns.

The result is a system where every customer, every piece of stock, and every WhatsApp conversation is captured on the same Odoo instance — configured specifically around how a jewellery counter runs, from weight and purity tracking to custom order follow-up.

WHAT WE WILL DELIVER

- ✓ **CRM Module**
Customer profiles, purchase history, custom order tracking, and follow-up reminders.
- ✓ **Inventory Module**
Stock tracked by weight, karat/purity, category, and location — synced with POS sales.
- ✓ **WhatsApp Marketing**
Direct messaging, order & repair status updates, and broadcast campaigns from Odoo.
- ✓ **2 User Roles**
Admin/Owner and Daily Operations configured with the right level of access each.
- ✓ **Built on Existing Odoo**
No new software, no migration — POS keeps working exactly as it does today.
- ✓ **Training & Go-Live Support**
Both users trained, with CodeOx on standby through go-live.

OUR COMMITMENT

Code-ox Technologies configures Odoo around how your business actually runs — not the other way around. For Adiba, that means weight, purity, and stone fields built into Inventory from day one, and a CRM and WhatsApp workflow shaped around jewellery retail, not a generic template.

1

SECTION 1

Scope of Work — Modules & Configuration

#	MODULE / DELIVERABLE & SCOPE DESCRIPTION
01	CRM — Customer Profiles & Purchase History One record per customer — every purchase, preference, and occasion (weddings, Eid, anniversaries) in one place.
02	CRM — Custom Order & Bespoke Piece Tracking Custom orders and special requests tracked as CRM opportunities — status, deadline, and customer linked together.
03	CRM — Follow-Up Reminders Odoo reminds staff to follow up on quotes, repairs, and occasions — no customer forgotten.
04	Inventory — Weight, Purity & Stone Fields Stock tracked by weight, karat/purity, category, and stone details — not just a generic quantity count.
05	Inventory — Real-Time Stock Sync with POS POS sales auto-deduct stock. Know exactly what's on hand, without a manual recount at the counter.
06	Inventory — Low-Stock Alerts by Category Get notified before a fast-moving category runs out — reorder before you lose a sale.
07	WhatsApp — Direct Messaging from CRM Records Message customers directly from Odoo. Full conversation history logged on their CRM record — nothing on personal phones.
08	WhatsApp — Order & Repair Status Automation Pre-approved templates for automated order and repair status updates — no phone call needed.
09	WhatsApp — Broadcast Campaigns Announce new collections, Eid or wedding-season offers, and promotions to your customer list in one send.
10	User Roles & Access Configuration 2 users configured: Admin/Owner (full visibility, reporting, pricing control) and Daily Operations (POS, CRM entry, stock updates, WhatsApp updates).
11	Training & Go-Live Support Hands-on training for both users. CodeOx on standby support through go-live on the existing Odoo instance.

Final Payment (50%)	Upon training completion and go-live	4,000
Project Total		8,000

* All amounts are exclusive of VAT. VAT (15%) will be added to each invoice as per KSA regulations.

COSTS NOT INCLUDED IN THIS QUOTATION

Odoo user licence fees are billed directly by Odoo per your subscription plan. Adiba currently holds a 1-user licence for POS — moving to 2 users requires an upgrade on the Odoo plan, confirmed with exact pricing during the discovery session. WhatsApp Business API costs — Meta's per-conversation fees and any BSP (Business Solution Provider) charges — are billed directly to Adiba by Meta/the BSP.

TERMS & CONDITIONS

General Terms

- Scope of Work:** This proposal covers CRM, Inventory, and WhatsApp Marketing setup and configuration as described. Any features outside this scope will require a separate written agreement and may incur additional charges.
- Client Responsibilities:** Adiba agrees to provide Odoo instance access, stock category data, and timely feedback within agreed deadlines. Delays caused by the client may impact the project timeline.
- Odoo Licence Costs:** Odoo user licence fees are billed directly by Odoo per Adiba's subscription plan and are not included in this quotation.
- WhatsApp API Costs:** WhatsApp Business API usage — Meta's per-conversation fees and any Business Solution Provider (BSP) charges — is billed directly to Adiba by Meta/the BSP and is not included in this quotation.
- Revisions:** Configuration includes up to two (2) rounds of adjustment post-training. Additional rounds will be charged separately at an agreed rate.
- Warranty:** Code-ox Technologies provides 30 days of complimentary support post go-live, covering all configured modules. Extended support retainer packages are available upon request.
- Confidentiality:** Both parties agree to keep the contents of this proposal confidential and not disclose them to any third party without prior written consent.
- Governing Law:** This agreement shall be governed by the laws of the Kingdom of Saudi Arabia.

ASSUMPTIONS & EXCLUSIONS
Key Project Assumptions

- ☐ Adiba will provide product category and stock data (weight, purity, categories) within **5 business days** of kickoff.
- ☐ Odoo instance access and current POS configuration credentials will be provided by Adiba prior to setup.
- ☐ WhatsApp Business number and Meta Business verification are **client-provided**, and all WhatsApp API/messaging costs are **billed to and paid by Adiba directly**. Code-ox will configure the integration only.
- ☐ Upgrading the Odoo licence from 1 to 2 users is Adiba's responsibility, billed directly by Odoo.
- ☐ WhatsApp message template approval timelines are set by Meta/WhatsApp and are outside Code-ox's control.
- ☐ This quotation is valid for **30 days** from the date of issuance.
